COACH DEVELOPMENT THROUGH BCSA/CSA CERTIFICATION COURSES.

As part of our ongoing commitment to provide our coaches with the “tools of their trade” we support their enrollment into the various grassroots certification courses, based on the age groups that they are individually coaching within.

We are partnered with other Fraser Valley Clubs in the FV Alliance Group to collectively offer these courses to individuals within our respective clubs that require certification in order to work with our young aspiring players.

The objective of the group is to offer these courses in advance of upcoming seasons (fall/winter & spring) and we as a club use our database to identify which of our coaches is in need of further education based on their team/age group assignment for the season. This database is continually updated and reviewed ahead of each season. Our mandate being to ensure that every coach that steps on the field is fully certified in regards to the CSA/BCSA courses and also meet necessary criteria through participation in a number of the key NCCP courses.
